SKILLS

FRONTEND & MOBILE

- React.js
- TypeScript
- React Native
- Flutter
- Dart
- HTML5/CSS3
- Tailwind CSS

BACKEND & SERVERLESS

- Node.js
- Firebase
- Supabase
- REST APIs
- WebAssembly

AI & EMERGING TECH

- Generative AI
- RAG
- LLM Integration

DEVELOPER TOOLS

- Git / GitHub
- VS Code
- Cloudflare
- Expo

EDUCATION

- BS in Information Technology
- Southwestern University
- PHINMA
- Expected 2028

PROFESSIONAL SUMMARY

Software Developer and Chief Operating Officer specializing in building cross-platform web and mobile applications using React, React Native, and Flutter. Experienced in independently architecting serverless solutions, developing local-first products like Trae and OMNI, and coordinating operations for a developer community of 150+ members. Actively expanding capabilities in generative AI to integrate LLMs and RAG workflows into modern applications.

EXPERIENCE

- Chief Operating Officer

2026 – Present

SwuDevs

 - Coordinating operations and workflows across Technology and Development, Creatives and Design, Programs and Events, Marketing and Communications, and Finance for a 150+ member community.
 - Designing a technical curriculum focused on university courses, hackathon preparation, and developer tools.
 - Managing speaker outreach and partnerships with industry experts to enrich community events.

SELECTED PROJECTS

- Trae

React Native • Expo • Expo Router • Zustand • NativeWind • Gifted Charts

 - Developed a cross-platform mobile app for tracking student duty hours, achieving a 95% user satisfaction rate.
 - Reduced manual session logging time by 60% using Zustand state management and custom interactive charts.

OMNI

- React • TypeScript • WebAssembly • PDF.js & jsPDF • Cloudflare Workers
- Built a local-first, serverless document studio with React and Cloudflare Workers for 100% data privacy and 0ms latency.
 - Integrated client-side WebAssembly machine learning models to run background removal at zero cloud hosting cost.
 - Accelerated bulk document conversions by 4x using browser-based asynchronous Web Workers.

CERTIFICATIONS

- Retrieval-Augmented Generation for Enhanced AI Outputs – IBM SkillsBuild
- Gemini for Application Developers – Google Skills / Google Cloud
- Web Development Fundamentals – IBM SkillsBuild
- Full-Stack Development 101 – Simplilearn
- Flutter Development – Google Skills / Google Cloud
